CHINMAYANANDA HIREMATH
Address: Sri Vishnu Sai PG for Gents, AECS layout 1st main road,
A Block, Bengaluru, Karnataka-560037
Email ID: chihi22ece@cmrit.ac.in, chinmayanandah@gmail.com
Mobile No: +91 9731333524
LinkedIn: https://www.linkedin.com/in/chinmayananda-hiremath-2b2bbb308/
GitHub: https://github.com/chinmay-hub-17

CAREER OBJECTIVE

Motivated Electronics and Communication Engineering student with strong fundamentals in circuit design, embedded systems, and signal processing. Skilled in Python, MATLAB, Arduino, Embedded- C, C with hands-on project experience in Raspberry-Pi, IoT devices, and automation. Completed internship at BHEL, gaining industry exposure to real-time core engineering practices. Seeking to contribute technical expertise and innovative solutions to the growth of leading core sector companies.

EDUCATION QUALIFICATION

- **Bachelor of Engineering – Electronics and Communication Engineering**
  CMR Institute of Technology, AECS Layout, Bangalore
  7.63, 2026(Pursuing)
- **Pre University Course – Science**
  SMY Y Jana Tharani PU College, Vidyanagar Gangavathi, Kopal-583227, Karnataka
  87.5%, 2022
- **10th Standard**
  Rashtrotthana Vidya Kendra Ramanagara Bellary, Karnataka
  72.6%, 2020

TECHNICAL SKILLS

Languages: C programming, PYTHON, C++ (Basics)

Software: MATLAB, Arduino IDE, HMI, Embedded-c.

Communication Protocols: UART, SPI, I2C.

Hardware Skills: PWM, ADC, GPIO, Motor Control, Sensors.

PROJECTS

Raspberry Pi Based Wearable Reader for Visually Impaired People

- **Description:** Worked on the development of a wearable reading aid designed for visually impaired users. The device captures printed text using a camera connected to a Raspberry Pi and converts it into audio output. The project helped me understand real-time image processing, text recognition, and how assistive technology can improve everyday usability and independence.
- **Tech Stack:** Raspberry Pi, Camera Module, Speaker/Headphones, Python, OpenCV, Tesseract OCR, Text-to-Speech, Raspbian OS.

Real-Time Motor Control with Cloud Connectivity using ESP32 and C2000 MCUs

- **Description:** The ESP32 acted as an IoT gateway for cloud connectivity, while Texas Instruments C2000 microcontrollers (F28397D and F28069M) handled real-time motor control and communication with a Red Lion HMI for industrial-grade operation. Motor speed and start/stop functions were implemented through GPIO, ADC, and PWM using Code Composer Studio and MATLAB/Simulink. Remote access and monitoring were enabled via Arduino IoT Cloud, with CAN and UART protocols ensuring reliable multi-device synchronization. This project demonstrated practical applications in industrial automation, enhancing flexibility, safety, and efficiency while strengthening skills in embedded systems, IoT, and troubleshooting.

- **Tech stack:** ESP32, TI C2000 MCUs (TMS320F28397D, TMS320F28069M), Red Lion HMI, Embedded C, Arduino IDE, MATLAB & Simulink, Arduino IoT Cloud.

Title: Voice Activated Control of EV with Obstacle Detection

- **Description:** Designed a smart EV prototype integrating voice control (Bluetooth HC-05) and ultrasonic based obstacle detection for autonomous braking and safety Programmed Arduino Uno in Embedded C to process voice commands and sensor data for real-time control, Integrated ultrasonic sensor with servo motor to detect obstacles and automatically trigger electronic braking when within a defined safety range. Designed a custom PCB to consolidate microcontroller, motor driver, and sensor modules — improving reliability, reducing wiring noise, and giving a production-grade finish
- **Tech Stack:** Arduino IDE, Embedded C, Proteus 8 Professional, Ultrasonic Sensor (HC-SR04) Servo Motor, L298N Motor Driver, HC-05 Bluetooth

---

CO-CURRICULAR & EXTRA CURRICULAR ACTIVITIES

Internship:

- One month Internship in BHEL-Bharat Heavy Electronics Limited.

Online Courses & Certifications:

- Certified as an intern at BHEL-COE Power Electronics Lab.
- Certified as an intern at Internz Learn in the Embedded Systems.
- Participation Certificate in Texplore-National Level Project Expo.
- Completed a course on topic “Python crash course” from Udemy.

Technical Clubs:

- Served as club Member in TAQ Club.
- Served as Event management in Start-up Club.

Non-technical club:

- Served as volunteer in NSS Club, organizational skills in overseeing club activities and initiatives.

PERSONAL DETAILS

Date of Birth	: 17/06/2004
Gender	: Male
Nationality	: Indian
Permanent Address	: Ward Number 31, near Lalitha mahal, Virupapur Nagar, Gangavathi, Koppal dist-583227
Linguistic Competency	: Kannada, English, Hindi.
